Organic Grooming for the Eco-Cowboy

Herban Cowboy ensures that men are not excluded from the ecofabulous life. 100% vegan, void of dyes, alcohol and harsh synthetics (though they are not ALL natural), Herban Cowboy incorporates certified organic ingredients into their unique and lavish, gorgeously packaged products that are recyclable, biodegradable and printed with soy-based inks. With hints of musk, leather and spice, the Dusk Cologne is downright sexy (our team of female testers found it irresistible) - made with organic lemon, sage and ylang. The Shave Cream with aloe, lavender and peppermint will enliven any man's morning regimen, while looking good on the countertop.
